- Bench-top unit
- Uses any RMM-4XXX data cartridge (serial ATA solid-state [SS] or hard disk [SD])
- USB 2.0 high-speed data download
- Universal 9 Volt AC to DC power adapter included
- Front panel indicators
 - Power on
 - Data transfer activity
- Front panel power switch

Description

The DTU-4500S-1 data transfer unit is a low-cost desktop unit used to download pre-recorded data from removable memory cartridges. Memory cartridges are available as RMM-4XXX-SS and RMM-4XXX-SD, removable solid-state or hard disk memory modules with capacities ranging from 64 GB to 256 GB. Data recorded onto an RMM-4XXX cartridge using the nREC-4000S recorder downloads to a local PC or network drive using the USB 2.0 port on the DTU-4500S-1.

Applications

- Ground support
- Recorded data transfer
